

In-depth family therapy training with Bowen Theory at its core, focusing on applying theory & practice to the live domains of self, family & clinical practice.

The *Advanced Certificate in Couple and Family Systems Therapy* with the Family Systems Institute is a flexible and affordable two-year program accredited by the Australian Association of Family Therapy (AAFT). The program features training in relationship systems thinking that is applicable to clinical work with individuals, couples and families. Drawing on the Institute's rich history the *Advanced Certificate* offers a unique opportunity for training in the theory and application of Bowen Family Systems Theory within the broader context of family therapy.

### ADVANCED CERTIFICATE IN COUPLE AND FAMILY SYSTEMS THERAPY

### Overview

- **Two-year core program** plus additional program elements with live online learning groups and in-person intensives
- **Twice annual intake** into the program – February and July intake opportunities as well as the possibility of joining supervision groups, family of origin groups and workshops throughout the year
- **Flexibility and affordability** made possible by staggering the pace of study, recognised prior learning pathways and online learning options
- **Free registration** to the annual pre-conference event and the FSI's End of Year Symposium and student discounts to the FSI annual conference and workshops
- Meet **CPD requirements** with relevant training while working towards accreditation as a family therapist with the Australian Association of Family Therapy
- **Collaborative discussion groups and modules** include an in-depth guided reading program and stimulating online learning groups with peers, facilitated by experienced practitioners and FSI trainers
- **Additional program requirements** can be done simultaneously with the core program or up to 8 years beforehand and incorporated as recognised prior learning:
  - > **Special topic workshops** focus on clinical application and offer a family systems lens on current and challenging topics including: couples & families; trauma; addictions; domestic violence; divorce, remarriage & affairs; neuroscience & neurobiology.
  - > **Group clinical supervision** includes case presentations and the opportunity for live supervision in the viewing of clinical tapes, providing the opportunity for grappling with the integration of theory and practice
  - > **Family of origin groups** offer a dedicated space to consider the self of the therapist.

## Who is it for?

The **Advanced Certificate program** is ideal for already practicing clinicians wanting to gain theory and practice experience in working with couples and families. It is open to clinicians from various disciplines including social work, psychology, psychiatry, occupational therapy and nursing with a relevant undergraduate degree. The program offers a rich learning platform for participants beginning to work with families as well as more experienced therapists. The unique focus of the self as therapist creates a learning experience that promotes personal and professional growth in applying Bowen theory for both experienced and emerging family systems clinicians. As a training program accredited by the Australian Association of Family Therapy (AAFT), this program offers a pathway towards certification as a Clinical Family Therapist with AAFT.

*Other FSI program options available:*

- The **Certificate in Family Systems Theory and Application** provides an opportunity for those wanting to integrate systems thinking in the relationships they are working with in a non-clinical context. These include professionals working with fields including ministry, human resources, education, nursing, non-government agencies, family support, disability, drug and alcohol support services and mental health.

## Course structure

The Core Program for the Advanced Certificate is two years, plus there are compulsory professional development components of the program which can be completed alongside the program enrolment period or up to 8 years beforehand and incorporated as program credit (Recognised Prior Learning). This provides flexibility and affordability for individuals who can build on their learning over time through workshops, FOO Groups and Clinical Supervision Groups in the years prior to enrolling in the Core Program.

CORE PROGRAM
