Personal reflection on systems thinking and application to the program

Please describe your first encounter with Bowen Family Systems Theory, and your own thinking and reactions to your early exposure to the theory:

What aspects of family systems theory have connected with your current learning interests?

How do you hope to investigate and apply systems ideas in the context of your own life and work?

What are some of your own learning goals as you approach thinking more deeply about family systems theory and its application?

How do you plan to use the Advanced Certificate to meet your learning goals?
